Name: Bob Bair  Department: Desktop Services
Submitted by: Jim Branden

Bob Bair of ITS Desktop Services performed tirelessly for nearly a year to transition Citrix access from old software to the latest version in a completely new IT environment. Citrix access provides nearly fifty programs to individual’s computers on demand, 24/7, for all the computer labs on campus, students’, faculty and staffs’ individual computers; users have access from both on campus and from off campus over secure Internet connections. Bob coordinated with a team of UNCC ITS specialists in the creation and configuration of the support environment as well as worked with many users to assure functionality of the latest versions of their programs running under the control of the newest version of the Citrix management software. The results of his efforts allow users to continue using their applications without knowing that the “behind the scenes” operations and storage completely changed (literally in less than two minutes) on July 13, 2015. The successful “switch” occurred because of Bob’s coordination and detailed preparations working with his coworkers and a consulting Citrix specialist. Every 49er owes Bob a “Thank you” as his work supports all aspects of the academic life of UNCC.

Name: Brien Clapton  Department: Facilities Zone 2
Submitted by: Lolita Gonzales

Just wanted to let you know how much I appreciated the help of Facilities Staff in Zone 2. They all should be recognized for their hard work and quick response to our departments request. But if I have to choose one... I would like to specially recognize Brien Clapton -- he is always willing to help. If we need or request something he will take care of it right away. Sometimes he doesn't even have to wait for someone to help or assist him he will do it on his own although the work would probably needs to be taken care of 2 or more people. I always see him power washing the sidewalks, cutting the grass although it is 90 or more degrees hot outside
but he never complains. He also does a good job in painting offices here in Grigg. Although all of the things that mentioned are part of his work but seeing him doing it with passion and always smiling and not complaining only shows how much he cares for the surrounding of the campus and the people he work with.

Brien is very compassionate person. He has a good hearth. He works hard and completes the work on time. I've always seen him around here around PORTAL, Duke, Grigg and Bioinformatics doing work. If you don't see him power washing outside the building during the summer, you'll see him in the building doing painting of the offices. He always on the move and I'm sure Ed (his supervisor) is pleased with his work ethic and personality. That's all I got to say about Brien. Lastly, Brien is religious person.

The upgrade involved the design and development of electronic forms, plus an extensive and detailed mix of training materials and workshop opportunities.

Jennie has done an excellent job of entering all of the English department’s courses on Banner and reaching out to other departments to arrange for cross-listed courses.
